Academic Honesty Statement  
for AST101 Practical Exercises, Fall 2001

I, the undersigned, hereby declare that the attached report and logbook are handed in for grading as part of the credit for the course AST101. I have read and understood the rules relating to academic dishonesty of SUNY at Stony Brook, and declare that none of my activities related to this report, the logbook, and the associated work violate those rules.

Specifically, I also declare that:

1. The work reported on, the logbook, and the report itself are mine and only mine. I have not copied any parts of it from similar reports written for this or any other course.

2. All observations reported were done by myself, on my own, at the times and places stated in the report and logbook. Where I did use other sources of data, those sources are explicitly stated with the relevant data in the report.

3. I have not given others enrolled in AST101 or any similar course any opportunity to copy my report or logbook or parts of either.

Furthermore, I am aware that any violation of the university rules or the above statements will be referred to the Academic Judiciary, and that I face severe penalties if I am found guilty of academic dishonesty (including, but not necessarily limited to, getting a grade of Q on the course and a severe lowering of my eventual course grade).
